GROWTH

A Journal Devoted to Problems of Normal and Abnormal Growth

VOLUME XXXV

Papers 899-928

1971

Author Index, Vol. XXXV, 1971

Wilson, L. L.	65, 79, 183
Ziegler, J. H.	79

Subject Index, Vol. XXXV, 1971

	Page
Adrenal weight in gerbils	169, 172
Adrenal glands	174
gerbil	175
cytomorphology of	175
rat	174
Age and body weight of male swine	162
correlations with weight of endocrine glands	163-165
Age changes in body water and fat of fetal and infant mammals	55
Allometric curves for X-irradiated rats	27-29
Allometry of body weight and tail length in rats	23
Alveolar cell tumor, mouse	99
Aminonicotinamide	215
influence on rat embryos	216
Ash content of rat carcasses	14, 15
effect of strain on	16
Beagle, growth of	369
Beagle, osteosarcomas of	119
Bilateral symmetry in limb bone dimensions	75

XUM

Page

Blood cells of female rats
influence of tumor growth on . . . 94
Body composition of beagles,
regression equations for . . . 373
Body length of rats . . . 17
effect of strain on . . . 16
Body weight gain vs food consumption in *Natrix* . . . 134
Bone density . . . 221
relation to age . . . 224
growth curve for . . . 225
scatter diagrams and regression lines of . . . 226
Bone marrow of rats . . . 91
metabolism of nucleic acids in . . . 91, 93
Carcass characters in cattle . . . 81
correlation with limb bone growth . . . 82, 83, 85-87
Centrifugation,
effect on skeletal radiodensity . . . 50, 51
Cephalograms
quantification of . . . 192
Changes in metabolism of nucleic acids during tumor growth . . . 95
Condylograph for measuring growth of ulna . . . 300, 301
Cranial base angles . . . 154
mean and standard deviations of . . . 155
distributions of individual change . . . 156
Cranial base measures, human . . . 145
distributions of change in . . . 152
Cranial base segments, curves for . . . 148, 151
mean and standard deviations . . . 149
Craniofacial growth
coordinate model for . . . 191
Craniofacial morphology . . . 192
computer plots of coordinate values . . . 198
mathematical model of . . . 194
coordinate points of . . . 195
Cytomorphology of rat and gerbil adrenal glands . . . 175
Density in separate parts of bone . . . 225
mean densities of . . . 227-229
DNA content of regenerating fat pads, rat . . . 341, 344, 345
DNA determination in epididymal fat pads . . . 342
Earthworm segments,
mitotic potential of . . . 355
Earthworms,
effect of removal of parts of nervous system . . . 332
experimental transections of . . . 331
growth limitation in . . . 327
numbers of segments regenerated . . . 332-334
regenerating posterior end of . . . 335
Editorial . . . 113
Effects of sex, age and ration on body ash, body length and tail length in rats . . . 13
correlation coefficients of components of variance in . . . 19, 20
Endocrine glands of swine . . . 159
age changes in . . . 159
relative weights of . . . 161, 162
Endosteal bone, mouse . . . 45
effect of centrifugation on . . . 46
Exponential growth constant . . . 124

Page

Fat pad regeneration in rats 343
Femoral radiodensity 59
Fetal mortality, rat 213
Food consumption of water snake 130
Food utilization in *Natrix* 134, 135
Gerbils, ... 170
  adrenal weights of 172, 173
Gravitational field,
  effect on rat growth 34
Growth
  craniofacial 191
  of beagle 369
    changes in chemical composition of 369, 372
  of body and tail lengths in rats 21
  of bovine metacarpal and metatarsal bones 67
  of miniature swine 257-269
  of the musk shrew 311
  of porcine muscle 349
  of Peromyscus hybrids 364
  of rats with hypothalamic lesions 140
  of tail and hind feet in Peromyscus 361-363
  of the water snake 127
    equations for 128-129
Growth curves for mandibular measurements 199
Growth dynamics of osteosarcoma 119
Growth limitation in cell cultures, earthworm 327
Growth measurements of ulna 297
  apparatus for 298
  procedure for 300
  results of 302
Growth periods in *Natrix* 132
Growth potential, genotypic differences in 10
Growth projections, craniofacial 201
Growth retardation in weanling rat 137
Growth vectorgrams 200
Hamster,
  body weight-organ weight relationships 253
Head circumference, male and female 241-243
Human cranial base 150
  segments 152, 153
Hypothalamic lesions in rat 137
Irradiated rats 27
  allometric and growth curves for 27-29
Length of ulna 308
  consecutive changes in 309, 310
Limits of proliferation in regenerating worms 330
  new hypothesis for 320
Linear dimensions of human cranial base 147
Mandibular length, growth curves for 199
Measurement of tumor and non-tumor areas 100
Meriones unguiculatus 169
Mesocricetus auratus 253
Metacarpal length and width, bovine 68
Metatarsal length and width, bovine 66, 67
Miniature swine 265
  organ-body weight relationships 259-266
  pituitary vs. body weight 268
  specific growth weights 269

XUM

	Page
Molar development, prediction equations for	187
Molar development codes for cattle	183-185
Mongolian gerbil	169
adrenal vs. body weight in	169
Mouse lung alveolar tumor	99
electronmicrograph of	99
Mouse skeleton	34-38
Muscle, porcine	350
chemical analysis of	350
compositional changes in	350
Musk shrews,	
development of	311
growth of	311
mean weights of	316-317
Myeloid/erythroid ratio	95
Natrix erythrogaster transversa	127
Non-tumor fraction of solid tumor	97
Nucleic acids	
metabolism in rat bone marrow	91-93
ONCOLOGY, reviews	103, 177, 273
Organ-body weight relationship in miniature swine	259
Organ weights of hamster	257
Osteosarcoma, beagle	119
growth dynamics of	119
radiographs of	119
Peromyscus maniculatus-polionotus hybrids	359
growth of tail and hind foot	365-369
Pig	
carcass characteristics of	281
chemical composition of	281
development of	282
growth of	281
Porcine muscle growth	349
Radiodensity of mouse skeleton	39
specific	44
Radiodensity of skeletal parts, rat	33
absolute	35
Rats	2, 12, 67, 138
effect of increase of gravitational field	33
effect of head irradiation on	30
growth of	1
regeneration of epididymal fat pads in	341
skeletal size	11
Regeneration of fat pads after lipidectomy	347
Regenerating earthworm cells, local origin of	336
Skeleton, human, density of	221
Skeleton, radiodensity of	11, 33
Suncus Murinus	311
weight increase in	318
Swine, endocrine glands of	159-162
Tail lengths of rats	18
Temperatures, environmental	1
effect on growth	1
heritability of	7
effect of fertility	6
Tibia, mouse	48
effect of centrifugation on	49

	Page
Transplantable tumors of rats	91
influence on circulating blood cells	94
Tumors, transplantable,	
effect on nucleic acid metabolism in bone marrow	95
Ulna, measurement of	297
mean of standard deviation and errors	303, 304
Vectorgrams, craniofacial	205, 206
Ventromedial hypothalamic lesions	139
Vitamin antimetabolite, 6-AN	217
effect on rat embryos	217
Water content of fat-free body of hamsters and guinea pigs	56-59
comparison with other species	58, 60
Water snake, growth of	127
Weight gain as affected by environmental temperatures	4, 5
Wistar rats	342
body weight of	343
X-irradiation of rats	23
effect on body weight and tail length	23
